4th Meeting of the Stock and Ecological Risks Assessment (SERAWG4)
28 February - 04 March 2022 (online)

Update on SIOFA Fisheries

Relate to agenda item: 3

Working paper Info paper Restricted

SIOFA Secretariat

Abstract

This paper summarizes the latest data for SIOFA main species and display some figures on the availability of biological data on the species.

This report will be used to build the SIOFA draft overview of fisheries.

Recommendations *(proposals and working papers only)*

The SC to consider this report in relation to project SEC2021-07 (fisheries summary reports)

The SC to propose other species to be added into this update.
