4th Meeting of the Stock and Ecological Risks Assessment (SERAWG4)
28 February - 04 March 2022 (online)

Draft Fishery Summary Report
(project SEC2021-07)
Relate to agenda item: 10.1

Working paper Info paper Restricted

SIOFA Secretariat

Abstract

The previous meeting of the Scientific Committee and Meeting of the Parties requested that fishery report are made available on a regular basis (ref MoP8 para 115; SC6 para 142-146). This document is a draft template report that has been prepared by the SC Chair and the Secretariat. The Orange Roughy fishery has been used as an example in this report. Several section of this template cannot be filled or are not relevant to all SIOFA fisheries.

Recommendations *(proposals and working papers only)*

1. The SC to examine the template and its sections, and provide its feedback.
 2. The SC to advise which other items could be summarized in this report and the desired reporting frequency.
