Abstract

The previous meeting of the Scientific Committee and Meeting of the Parties requested that fishery reports are made available on a regular basis (ref MoP8 para 115; SC6 para 142-146). This document is a draft template for ecosystem report prepared by the SC chair and filled by the Secretariat. It focuses on ecosystem components and bycatch.

Recommendations *(proposals and working papers only)*

1. The SC to review the report template and provide its feedback.
