Abstract	
In 2022-2023 little exchanges occurred between SIOFA and CCAMLR. The main exchange that occurred was about Patagonian Toothfish tagging data.	

¹ Restricted documents may contain confidential information. Please do not distribute restricted documents in any form without the explicit permission of the SIOFA Secretariat and the data owner(s)/provider(s).

² Documents available only to members invited to closed sessions.

Summary of exchanges

A couple of Patagonian Toothfish with tags have been recaptured in the SIOFA area.

Most of them have been tagged in the CCAMLR area.

Exchange steps:

- Data request sent to CCAMLR together with recaptured tag information
- CCAMLR ran its tag linking algorithm
- CCAMLR sent a data release request to the data owner (members which performed the tag release)
- CCAMLR had the authorisation to release data from the data owners
- CCAMLR sent the relevant data to the SIOFA Secretariat

Detailed information about these tags is presented in paper SC-08-14 Overview of SIOFA Fisheries 2023, page 54.
