<b>Abstract</b>	<p>This paper presents the draft report of SIOFA project SER2022-TOP2 'Stock structure of Patagonian toothfish (<i>Dissostichus eleginoides</i>)'.</p> <p>This draft report has not yet been published on the corresponding project page on the SIOFA website (<a href="https://siofa.org/science/sc-works/SER2022-TOP2">https://siofa.org/science/sc-works/SER2022-TOP2</a>), as only the final reports are published. The project was expected to deliver its final report in May 2024, and the latter will be submitted to SC10, but note that a delay on this schedule is expected due to the late fishing season and that a corresponding request for timeline variation has been submitted.</p>
