Abstract	<p>In 2022 two audits have been initiated by the MoP, one about data availability and one about data security. These audits resulted in several recommendations. The MoP chose to retain some of these recommendations and to implement them in a 2023-2026 workplan.</p> <p>This paper summarizes the recommendations and their development status.</p> <p>In 2025 most of the recommendations have been considered and implemented. However, a few items are still in progress or partially implemented and a few of them require the MoP and its subsidiary bodies to act on. The SC provided some advice at its 9th Meeting, and the MoP at its 11th meeting. A few recommendations still require some work, especially on the recommendations in relation to the amendments CMM 03, and on those that require funding.</p>

¹ Restricted documents may contain confidential information. Please do not distribute restricted documents in any form without the explicit permission of the SIOFA Secretariat and the data owner(s)/provider(s).

² Documents available only to members invited to closed sessions.

Recommendations (for proposals and working papers only)

- The SC to discuss amendment of CMM 03 (Data Confidentiality)
- The SC to provide advice on the remaining recommendations that require external consultants or that require funding.
