Annex A. Flowchart of data exchange of tagging information between the CCAMLR and SIOFA Secretariats

Annex B. Flowchart of data request pathways for analysts requesting data

Analyst request, following the data access rules of the contacted Secretariat, including the reason for the data request

Data extract prepared, noting the presence of cross-boundary tagging data. Secretariat asks analyst if he/she is interested in cross-boundary tagging or other data:

- If no, cross-boundary data is excluded from extract.
- If yes, Secretariat informs CCP/Member of how data may be used according to either Secretariat's rules (eg open/restricted SIOFA papers vs restricted CCAMLR papers), then:

Inter-Secretariat facilitation of data release following their data access rules, specific to data type (eg Catch and effort, tagging...).

Data release by the contacted Secretariat
