Abstract	<p>This paper presents the SIOFA Fisheries Summary: orange roughy (<i>Hoplostethus atlanticus</i>) 2024, which was endorsed by the SIOFA SC during its 9th Annual Meeting (SC-09-16-Rev1). This series of documents aims to describe specific SIOFA fisheries in the SIOFA Area and summarize the available information for each species, and their biology and ecology. The first edition of this report was published in 2023, including data up to 2021, and the SIOFA SC plans to update this document annually. Please note that this document does contain sections with confidential data (highlighted in yellow in the text) and thus is provided as a restricted document, but confidential data will be removed prior to publication.</p>

¹ Restricted documents may contain confidential information. Please do not distribute restricted documents in any form without the explicit permission of the SIOFA Secretariat and the data owner(s)/provider(s).

² Documents available only to members invited to closed sessions.

Recommendations

The SIOFA Scientific Committee recommended that the Meeting of the Parties:

- **endorse** the SIOFA Fisheries Summary: orange roughy (*Hoplostethus atlanticus*) 2024 (SC-09-16-Rev1) and **request** the Secretariat to make a public version of it, with confidential information removed, available on the SIOFA website.
