Recommendations

- The CC10 to **consider** the updated status of the performance review tasks, as assessed by MoP12 and SC11 and to **consider** updating the status of its own tasks as appropriate.
- The CC10 to **consider** the perspective of a renewal of a Performance Review process.
- The MoP13 to **consider** the updated status of the performance review tasks, as assessed by SC11 and CC10 and **confirm** the current status of the Performance Review Recommendations and to **revise**, as needed, the proposed timelines.
- The MoP13 to **task** the Secretariat to put in place a second iteration of the new Performance Review process.

SIOFA Performance Review Recommendations

Introduction

In 2023, SIOFA conducted its first Performance Review, resulting in a report containing 49 recommendations. Following its publication, the Scientific Committee convened an extraordinary meeting (SC-EXTRA1) to consider the findings and formulate recommendations to the Meeting of the Parties, including a proposed implementation timeline.

At its 11th annual meeting, the Meeting of the Parties endorsed the Performance Review report and the majority of its recommendations, formally launching the implementation phase. Since then, the Scientific Committee, the Compliance Committee, and the Meeting of the Parties have worked alongside the Secretariat to advance implementation, with each body reporting progress at its annual meeting.

During the 12th Meeting of the Parties, The MoP agreed to simplify and improve the process for reviewing the implementation of SIOFA Performance Review recommendations.

This document integrates inputs from SC11 and provides an updated status of all recommendations.

Method

This document presents the updated implementation status of all SIOFA Performance Review recommendations.

Recommendations are organised by implementing body (the Meeting of the Parties, the Compliance Committee, the Scientific Committee, and the Secretariat). Where a recommendation involves multiple bodies, it appears under the MoP section.

Its structure has been modified in accordance with paragraph 383(d) of MoP12 Report, which agreed to streamline the process for reviewing recommendation implementation going forward. In accordance with the MoP12 decision, within each section recommendations are ordered as follows:

- Recommendations on which progress has been made in the intersessional period
- Recommendations adopted by the MoP and completed
- Recommendations not adopted by the MoP

In addition, the document also includes an additional sub-section titled “Recommendations for which implementation has not yet started or has been stopped”.

Within each group, recommendations are listed sequentially by their original recommendation number to facilitate cross-referencing with the Performance Review report.

A “traffic light” colour system is used in this table to rapidly visualize the status of the tasks assigned to the different SIOFA implementing body. The following table provides an explanation of the colour coding system:

Recommendation not yet addressed by the implementing body	
Recommendation with ongoing actions from the implementing body	
Recommendation completed by the implementing body

SIOFA Performance Review Tasks for the MoP

This section covers recommendations for which the MoP has been identified as a lead or co-implementing body. Per MoP12 recommendations, the section organised into four sub-sections: (1) recommendations on which progress has been made during the intersessional period, (2) recommendations for which implementation has not started or has been discontinued, (3) recommendations adopted by the MoP and considered completed, and (4) recommendations not adopted by the MoP. Recommendations within each section are presented sequentially.

1. Recommendations on which progress has been made in the intersessional period

11	The Panel recommends SIOFA discusses with CCAMLR concrete options to co-manage toothfish stocks shared between the 2 organisations and establishes either a prohibition of fishing for this resource outside established toothfish management units or revised the units as required so no activities escape the conservation measures established for this resource.	H	42. The SC endorsed Recommendation Nr 11 and noted that it is consistent with its discussions at SC8 (paragraphs 143–155, SC8 Report). 43. The SC endorsed the high priority assigned to this recommendation.		MoP endorsed recommendation 11.	H	MoP	ongoing	The management of toothfish in South Indian Ridge (SIR) area is going ahead with a proposal of a catch limit of 66.7t. Currently there is not a formal co-management stock of toothfish, but it has been recommended to the Secretariat to develop a method paper detailing the calculation of the trend analysis rule catch limits, based on CCAMLR paper WG-FSA-2025/01 and the interpretation used by SIOFA in applying these rules to SIOFA toothfish stocks. This document will be submitted to SC12 for review.
13	The Panel recommends SIOFA CCPs adopt precautionary measures for target stocks other than the three key stocks of toothfish, orange roughy and alfonso.	H/M	46. The SC endorsed Recommendation Nr 13 and noted that it had discussed and recommended interim Harvest Control Rules (HCRs) for the key SIOFA stocks (paragraph 178, SC8 Report). 47. The SC endorsed the high/medium priority assigned to this recommendation.		MoP endorsed recommendation 13	H/M	SC / MoP	ongoing	Note the development of harvest strategies for key stocks and note the ERA and proposed updates for future meetings (SC workplan). Note the work on CPUE for oilfish and escolar. Note the catch limits on species not otherwise assessed based on the average catch of a reference period already adopted by the MoP.

14	The Panel recommends SIOFA CCPs engage in discussions towards a future regime for the allocation of fishing rights.	L			MoP endorsed recommendation 14	L	MoP	5 years	An “interim” framework for allocating fishing rights in SIOFA fisheries, giving the Meeting of the Parties (MOP) criteria for distributing participation rights to Contracting Parties and Cooperating Non-Contracting Parties (CCPs) has been proposed during MoP12 by CKI. This framework would apply only until harvest strategies with quota allocation mechanisms are formally adopted for specific SIOFA fisheries. Its aim is to provide fair, transparent, sustainable, and effective criteria for allocating fishing participation rights in line with the SIOFA Agreement and for fisheries in areas beyond national jurisdiction. The discussions are always in progress and the MoP, during MoP12, agreed to continue to discuss this matter at MoP13.
--	Recommendations nr 10, 12 and 13, above on the implementation of the Precautionary approach apply also for the purposes of the issues assessed under this criterion.	--							
19	The Panel recommends SIOFA CCPs to agree urgently on measures to reduce shark by-catches, in particular by implementing any mitigation measures that identified as effective by the 2023 specific workshop on sharks to take place under the aegis of the Scientific Committee, including precautionary catch limits for Portuguese dogfish. Recommendation nr 2 on the assessment of the status of shark stocks is also relevant for the issues discussed under this criterion.	H	56. The SC endorsed Recommendation Nr 19 and noted that it held extensive discussions on measures to reduce shark by-catch measures at SC8, including the outcomes of the Intersessional Workshop on Deepwater Sharks in SIOFA Area and the SC recommendations to the MoP (paragraphs 225–257, SC8 Report). 57. The SC endorsed the high priority assigned to this recommendation. 26	The Panel recommends and encourages SIOFA CCPs to continue their efforts to agree on a SIOFA VMS in order to verify vessels activity in the Agreement Area. The Panel also recommends that CCPs adopt rules for the submission VMS data until such scheme is adopted.	H/M	62. Regarding Recommendation Nr 26, the SC noted that the sharing of VMS data with the SC could be useful for enabling the verification fishing location data for its data checking procedures.	90. Regarding Recommendation Nr 26, the Compliance Committee endorsed the recommendation to continue efforts to agree on a SIOFA VMS and noted that this work is ongoing. 91. One CCP suggested that Recommendation Nr 26 should be assigned a priority of 'H' rather than 'H/M'. 92. Another CCP suggested that the second recommendation, to adopt rules for the submission of VMS data, should only be considered if and when a SIOFA VMS is agreed upon.	MoP endorses the recommendation, noting the statements of some CCPs that the rule of submission of VMS data, should only be considered if and when a SIOFA VMS is agreed upon	H	CC and MoP	1 - 3 years (ongoing)	Since MoP12, significant progress has been made in relation to the SIOFA VMS, including the procurement of the SIOFA VMS system and the implementation of a pilot phase prior to the system's entry into operation. See Paper CC-10-10.
27	The Panel recommends SIOFA CCPs urgently seek to clarify the various issues of interpretation affecting the implementation of several MCS measures, in particular those related to CMM 06 on the IUU vessel list, CMM 07 on Vessel authorisation and CMM 14 on the HSBI procedures, including by seeking independent legal or technical advice if necessary.	H		93. The Compliance Committee did not express any views regarding Recommendation Nr 27.	MoP endorses the recommendation, and notes that there may not be a need to seek independent legal or tech advice	M	SC CC MoP	ongoing (3 - 5 years)	CMMs are regularly reviewed by the MoP and its subsidiary bodies. CMM 06 was reviewed in 2024. CMM 07 was reviewed in 2025.
--	With regard to SIOFA's observer programme, and in general with regard to possible technical improvements for the standing measures, Recommendation nr 9 on a corpus of SIOFA CMMs applies also for the purposes of the issues assessed under this criterion

31	The Panel recommends that SIOFA CCPs task the Secretariat to assess the capacity building needed in order to improve implementation of their obligations by the CCPs, prioritizing the most urgent and providing options to ensure appropriate assistance is provided to CCPs which so require.	M	63. The SC endorsed Recommendation Nr 31 and noted that it should be considered in conjunction with Recommendation Nr 6. 64. The SC endorsed the medium priority assigned to this recommendation.	97. The Compliance Committee endorsed Recommendation Nr 31 and noted that the identification of capacity gaps is an essential part of an effective CMS.	MoP endorses this recommendation. And notes that capacity building was already discussed	H	Secretariat CC SC MoP	1 - 3 years	CC8 recognized the need for capacity building within CCPs' delegations, which in part could be addressed by the workshop on the usage of the new CCR template. During the inter-sessional period between MoP12 and MoP13, the Secretariat conducted a second round of consultations regarding capacity building options for developing CCPs. The results are presented to CC10 through paper CC-10-07 and to MoP13 through paper MoP-13-07. Capacity-building options were also presented to SC11, see paper SC-11-23.
38	The Panel encourages SIOFA CCPs to continue and if needed intensify dialogue on matters of concern to different CCPs, where consensus has not been achieved in order to find a common view which can be satisfactory to all CCPs. In particular, the Panel recommends to address bottom fishing activities in the Saya de Malha Bank, the scope of boarding and inspection procedures under CMM 14 and the issue of managing overlapping obligations for vessels arising from both SIOFA and neighbouring RFMOs, in particular the IOTC.	M			MoP endorses the recommendation	M	MoP	ongoing	MoP11 notes that the issue of bottom fishing on Saya De Malha has been discussed at several MoPs without an agreed way forward. Regarding the overlapping area of SIOFA and IOTC, the parties have been working on establishing a formal cooperation framework and are already cooperating on several matters (data, IUU fishing).
42	The Panel recommends SIOFA CCPs consider strengthening cooperation with the IOTC, SWIOFC, SEAFO, SPRFMO, and CCSBT, as appropriate.	H	72. Regarding Recommendation Nr 42, the SC noted that for some stocks in some areas, the scientific information and methods applied by these regional fisheries management organisations (RFMOs) may be relevant to SIOFA and cooperation with them would be beneficial.		MoP endorses this recommendation, the MoP notes that cooperation with CCAMLR and other bodies (eg FAO) is also necessary.	H	SC, CC, MoP Secretariat	ongoing	The Secretariat has been working intersessionally to formalise cooperation between SIOFA and IOTC. However, as IOTC lacks independent legal personality and its Executive Secretary has no delegated authority from the FAO Director-General to sign formal instruments, cooperation is currently developing on an informal basis.

44	The Panel recommends SIOFA CCPs consider setting up a section on the SIOFA website dedicated to SIOFA's implementation of Article 13 of the Agreement, presenting the assistance that may be provided individually or collectively by CCPs to meet the special requirement of CCP developing States including, in particular, the least developed among them, and small island developing States.	M	73. Regarding Recommendation Nr 44, the SC noted that it could be tasked with capacity building in scientific areas. The SC noted that the FAO DSF Project may also share objectives that are aligned with this recommendation.		MoP endorsed this recommendation, and notes the comments provided by the SC	M	SC, CC, MoP Secretariat	3 years	<p>The Secretariat has included a dedicated section on the website dedicated to the implementation of Article 13 (https://siofa.org/about/developing-states)</p> <p>This section could also be used to include the capacity building action plan, if it is agreed by the MoP (see papers MoP-13-07 and CC-10-07).</p>
45	The Panel Recommends that SIOFA CCPs agree on a periodical review by the MoP of the organisation's implementation of Article 13 of the Agreement and encourage CCP developing States to proactively express their needs, challenges and special requirements affecting their contribution to SIOFA's work. The MoP may thereafter consider establishing a fund dedicated to these purposes or expanding the scope of the current one. 21	The Panel recommends SIOFA carries out a review of the effect of effort limits applicable to relevant fleets to determine whether such limits constrain the fishing activity or not, and that a clear determination is made on the potential use of capacity or effort limits as a fishery management tool, especially with regard to fisheries conducted with gears other than bottom gears. MoP endorses recommendation 21	M	SC and MoP	3 - 5 years	This recommendation will be considered within the ongoing work on the Precautionary Approach Framework and Harvest Strategies

23	The Panel recommends SIOFA CCPs consider the adoption of binding application of the Port Inspection Scheme to all ports of every CCPs, without the condition to apply to those having areas of national jurisdiction adjacent to the Agreement Area.	H/M		<p>84. Regarding Recommendation Nr 23, the Compliance Committee expressed its general support for reviewing the scope of the Port Inspection Scheme.</p> <p>85. One CCP supported expanding the scope of the Port Inspection Scheme but not to "all ports of every CCP" as stated in the Panel's recommendation, and cautioned that any potential amendment to the current scheme should be carefully considered to avoid adding unnecessary burden on ports not adjacent to the Agreement Area.</p> <p>86. Australia expressed its intention to prepare a proposal to amend CMM 2020/08 (Port Inspection), based on Recommendation Nr 23 and the views expressed by CCPs, with the aim to present this proposal at CC8.</p>	MoP agrees to review the scope of the PI scheme, and noted the recommendations by the CC	M	CC and MoP	1 - 3 years (stopped)	Australia conducted intersessional work, collecting CCPs views, and no consensus was reached on a way forward. The MoP during MoP12 agreed to not progress this work at this time.
24	The Panel recommends SIOFA adopts at least a minimum standard regarding inspection coverage of all fishing vessels carrying or landing resources of its competence which enter their ports.	H		87. Australia expressed its intention to consider Recommendation Nr 24 when preparing its aforementioned proposal to amend CMM 2020/08.	MoP agrees to consider minimum standards for PI coverage and noted the recommendations from the CC	M	CC and MoP	1 - 3 years (stopped)	Australia conducted intersessional work, collecting CCPs views, and no consensus was reached on a way forward. The MoP agreed to not progress this work at this time.
25	The Panel recommends SIOFA CCPs investigate possible landings or transshipments of SIOFA species at ports placed under the jurisdiction of non-CCPs, and if this is found to happen, initiate demarches with the relevant port States to request they become CCPs or cooperate with SIOFA as appropriate.	H		88. The Compliance Committee expressed its general support for Recommendation Nr 25. Some CCPs had different interpretations of the definition of "demarches" but agreed that, if possible landings or transshipments of SIOFA species are found to have occurred at ports placed under the jurisdiction of non-CCPs, the Secretariat should	MoP endorses the recommendation, noting the comments of the CC	M/L	Secretariat at CC MoP	3 - 5 years	The Secretariat sends annual invitations to coastal states to join the Agreement as CP or CNCP. 				contact the relevant port States to request they become CCPs or cooperate with SIOFA as appropriate. 89. The Chairperson of the Review Panel clarified that the key element of the investigation is the need to investigate possible landings or transshipments of SIOFA species at ports placed under the jurisdiction of non-CCPs.					[The 8th Meeting of the Compliance Committee (CC08) requested the Secretariat to broaden the range of data sources used in the analysis of potential landings or transshipments of SIOFA species at ports under the jurisdiction of non-Cooperating non-Contracting Parties (non-CCPs)—including data held by external organisations such as the Food and Agriculture Organization of the United Nations (FAO)—To this end, the Secretariat undertook consultations with the FAO as well as several relevant non-governmental organisations (NGOs). Despite these efforts, no suitable or verifiable port landing data were made available to the Secretariat during the reporting period. As a result, it was not possible to complete the analysis as requested by CC08.]

5	The Panel recommends SIOFA CCPs finalise the protocol on VME and protected area designation and speed up the process of progressing the agreed protected areas from their interim nature and identify any further areas in need for protection.	H/M	22. Regarding Recommendation Nr 5, the SC endorsed the recommendation and noted that related work is underway as part of the “PAE2022-MPA1 Protocols to designate and evaluate MPAs” EU funded project, which focuses on the designation and assessment of marine protected areas, and whose outcomes are expected to be delivered at the end of 2023. 23. The SC endorsed the high/medium priority assigned to this recommendation.		MoP endorses this recommendation	H/M	SC MoP	1 - 3 Years	Completed, see SC10 Report on revised protocol and proposed BPAs

15	The Panel recommends SIOFA CCPs agree on a definition of new fisheries and discuss a regulatory framework for new and exploratory fisheries incorporating the highest standards derived from international best practices. The framework should make proper use of tools already developed by SIOFA such as the fishing footprint, BFIA's and VME mapping.	H/M	48. The SC endorsed Recommendation Nr 15 and noted that there had been previous work on this matter, although not in recent years. The SC noted that it had recommended an updated bottom fishing footprint to the MoP and recommended that the MoP consider the implications of the bottom fishing footprint once it is agreed, including how new fishing should be considered (paragraphs 95 and 277, SC8 Report). 49. The SC endorsed the high/medium priority assigned to this recommendation.		MoP endorses recommendation 15 Work in ongoing	H/M	SC and MoP	1 - 3 years	Completed. A new CMM has been adopted MoP11 (CMM 17 (2024)).

16	The Panel recommends SIOFA CCPs to make every effort to progress from the current interim arrangements for bottom fishing to permanent rules, retaking discussions on this issue from the proposal tabled in 2019 or an updated version of it. Recommendation nr 9 above, on a corpus of SIOFA rules, applies also for the purposes of the issues at stake here.	H	50. The SC noted that, with the provision of BFIA's in the past years and of an updated footprint presented this year, the MoP could decide to move towards a more permanent management of bottom fishing. 51. The SC also noted its recommendation to the MoP noting that new fishing would need to be considered when the bottom fishing footprint is agreed (paragraph 95, SC8 Report).		MoP endorses recommendation 16 Work in ongoing	H	SC and MoP	1 - 3 years	MoP11 noted that SC9 provided some details on how to address new and exploratory fisheries. By adopting the bottom fishing footprint many provisions in the CMM 01 should not be interim anymore. A new CMM has been adopted by MoP11 (CMM 17 (2024)).
20	The Panel recommends the SC effectively use the focused agenda item on seabird by-catch, decided by SC 8 in 2023 for future sessions, to identify necessary by-catch mitigation measures, including in trawl fisheries, as originally proposed at the time CMM 13 was adopted.	M/L	58. The SC endorsed Recommendation Nr 20 and noted that it plans to hold a focused agenda item on seabird data collection and bycatch mitigation measures at SC9 (paragraphs 265 and 268, SC8 Report). 59. 22	The Panel recommends SIOFA CCPs consider incorporating the principles of a flag State performance self-assessment into their compliance monitoring scheme, including by tasking the CC with reviewing the annual national reports submitted by CCPs and currently reviewed only by the SC.	H/M	61. Regarding Recommendation Nr 22, the SC noted that it reviews CCPs' annual national reports to obtain the most recent information fisheries data and to identify any potential new trends or scientifically relevant issues.	83. Regarding Recommendation Nr 22, the Compliance Committee noted that flag State performance self-assessment is already part of the CMS, and that the Secretariat identifies any potential compliance issues from the annual national reports and replies to compliance questionnaire and presents these to the Compliance Committee for its consideration.	MoP endorses the recommendation and notes the comments of the CC and the SC that such assessments are already performed.	M	SC CC MoP	1 - 5 years (and ongoing)	Annual reports are reviewed annually at SC. The SIOFA CMS captures this recommendation
29	The Panel recommends SIOFA CCPs agree on a review of CMM 11 on a Compliance Monitoring Scheme in order to facilitate its interpretation, taking into account the changes proposed by this Panel, including to the CCR template and the rules regarding follow up action on infringements identified in previous years.	H/M		95. The Compliance Committee noted Recommendation Nr 29 and that the review of CMM 2020/11 (Compliance Monitoring Scheme) is part of its ongoing work. The Compliance Committee agreed to consider the Review Panel's views as part of its CMS review process.	MoP endorsed the recommendation, and notes that work is on-going.	H/M	CC MoP	1-3 years	An Informal Workshop on the SIOFA CCR Template (CCRTW) was successfully completed in March 2025. Furthermore, the Secretariat developed the "Guidelines for Completing the New SIOFA CCPs Compliance Report Template" which complemented the workshop and is available to CCPs when completing their CCR
32	The Panel recommends SIOFA CCPs discuss the possible adoption of a new measure on a Catch Documentation Scheme, focusing, in particular, on CCAMLR's DCD, and explore options for its implementation. The Panel recommends SIOFA strengthens its cooperation with CCAMLR in this regard, including by requesting	H/M		98. 37	The Panel recommends SIOFA CCPs consider strengthening the use of intersessional decision procedures or inter-sessional working groups to facilitate the work of SIOFA as appropriate, in order to focus MoP discussions and make better use of the time available.	M/L	70. Regarding Recommendation Nr 37, the SC noted that it has trialled and recommended the continuation of a new combined SC meeting format, supplemented by workshops and focused agenda items (paragraph 337, SC8 Report).		MoP endorses the recommendation, and notes that Inter-Sessional decision process should be used only when exceptional	M / L	MoP	1-5 years	Intersessional works have been done frequently through Workshops organised by the Secretariat for the Scientific Committee or for the Compliance Committee. It has not been necessary to use Intersessional Decision as soon as the decision to be taken by the MoP are early anticipated. The use of Intersessional Decision keeps useful to take intersessional decisions on matters of procedure or exceptionally on matter of substance.
39	The Panel recommends SIOFA CCPs continue to review, clarify and amend as appropriate the relevant data rules or provisions so that all CCPs as well as observers and the general public have better access to data and information for the purpose of discussion and decision-making.	M	71. The SC noted that it has held discussions on rules of data access and dissemination at SC8 (paragraphs 96–108 and 114–119 and Annex E, SC8 Report) and that the development of standardised reports such as fisheries summaries and ecosystem reports should also facilitate better access to data and information. H/M	74. Regarding Recommendation Nr 46, the SC noted that strategic financial planning for the medium-term would allow the SC to plan and prioritize its work and that the Medium-Term SC Workplan (Annex F, SC8 Report) contributes to the achievement of this recommendation. 47	The Panel recommends SIOFA CCPs discuss in depth the strategic plan presented by the Executive Secretary in 2022 but extend their discussions not just to the funding aspects of it, but also to its role. For this purpose, an analysis should be carried out of the Secretariat's degree of autonomy to identify areas where it could be allowed to operate in a more agile way.	M	75. 7	The Panel recommends either the deadlines for data submission under relevant CMMs or the schedule of the annual meeting of the Scientific Committee be revised to ensure the SC has the most recent data available ahead of its annual meeting.	H	27. Regarding Recommendation Nr 7, the SC noted that it had discussed this issue and reached the conclusion that: a. the current data submission deadline is the only feasible deadline for CCPs, as it comes after the end of the fishing season and that obtaining, entering and checking the data before submission to SIOFA would not be possible at an earlier date. The SIOFA Secretariat noted that, once received, these data are entered into the SIOFA databases, checked and validated, and that final versions of these data are only available for analysis around September, which would be after the MoP. b. rescheduling of the SC to a later date would therefore also not be a feasible option, as there would not likely be enough time to hold the MoP meeting within the same year. 28. The SC noted that it had previously discussed and requested the MoP to consider mechanisms to enable CCPs to submit data on a more frequent basis (e.g., monthly or quarterly		MoP agrees with the concerns expressed by SC. MoP does not endorse this recommendation. The MoP would however consider mechanisms to enable CCPs to provide data on a more frequent basis.				N/A

			reporting) where CCPs were able to (paragraph 64, SC7 Report). 29. The SC noted that the annual national reports provide a mechanism for the SC to have a summary of the most recent data and “could be used to support more informed discussions at the SC meeting” (SC8 para 52). The SC further noted that when conducting stock assessments on long-lived fish, the long-term trend is more important than the terminal year, and not being able to use the most recent data in a stock assessment is therefore not a major issue. 30. The SC recommended that the MoP note that it disagreed with Recommendation Nr 7.

12	The Panel recommends SIOFA CCPs to urgently agree on precautionary measures regarding alfonsino in light of the significant level of catches, second in the Area by weight, and of the fact that the stocks’ biological complexity makes it challenging to adopt measures other than precautionary, at least in the short-to-medium term. Effort and catches should be constrained to the lowest possible levels.	H	44. The SC disagreed with Recommendation Nr 12 and recommended that the MoP note that this recommendation was inconsistent with the previous alfonsino stock assessment advice (SC-05-29 Age-Structured Production Model assessments of the Alfonsino, and summarised in paragraphs 116–119 of the SC5 Report) and with the CPUE analyses conducted at SC8 (paragraph 130 and Figure 1, SC8 Report), which indicated that “the stock is fluctuating without trend in recent years”. 45. The SC recommended that the MoP consider changing the naming convention for the CMMs so that the CMM number precedes the year the CMM was updated, e.g., CMM 2020-01 would become CMM 01-2020.	82. Regarding Recommendation Nr 9, the Compliance Committee endorsed the recommendation to identify existing gaps and possible contradictions, and issues of interpretation in need of resolving, while noting that this is part of the ongoing work of the Compliance Committee. A decision to explore this option should only be taken if CCPs accept and assume the need for investment on capacity building as required.	H	67. Regarding Recommendation Nr 34, the SC noted that it would welcome any systems and processes that would improve the quality of data and allow the SC to conduct verification and quality checks. 68. The SC further noted that it has discussed the protection of confidentiality of data in past SC meetings and that processes that would protect confidentiality would be in line with recommendations that the SC has made previously. SIOFA Performance Review Tasks for the SC

This section covers recommendations for which the Scientific Committee has been identified as a lead or co-implementing body. A parallel version of this document was submitted to SC11 under reference SC-11-22. Per MoP12 recommendations, the section organised into different sub-sections: (1) recommendations on which progress has been made during the intersessional period and (2) recommendations adopted by the MoP and considered completed. Recommendations within each section are presented sequentially.

1. Recommendations on which progress has been made in the intersessional period

1	The Panel recommends that the SIOFA SC is tasked with conferring high priority to the improvement of stock assessments in order to reduce uncertainty as a necessary basis for the adoption of harvest strategies. This task should be subject to a target timeline and include a process for an independent peer review of assessment methods and results.	H	11. Regarding Recommendation Nr 1, the SC noted that it has made recommendations to the MoP on the development of harvest strategies and related data collection and stock assessment work at the Joint MoP-SC Harvest Strategies Workshop and at the SC8 meeting including the necessary steps and timelines for the stock assessments of the key SIOFA stocks. 12. The SC recommended that the MoP consider Recommendation Nr 1 in conjunction with paragraphs 166–197 and Annex F (Medium-Term SC8 Workplan) of the SC8 Report. 13. The SC endorsed Recommendation Nr 1 but recommended that the MoP note that it may be difficult to improve some stock assessments and reduce their uncertainty, because even though the catch and effort data collected are accurate, there may only be a limited amount of data available because of the small size of those fisheries. The SC also noted that the fisheries summaries should be made available to the public (paragraph 129, SC8 Report) and that the continued development of the fisheries summaries is a priority in the Medium-Term SC Workplan (Annex F, SC8 Report). 19. The SC endorsed the medium/low priority assigned to the recommendation.						
6	The Panel recommends SIOFA CCPs consider capacity building activities for developing States to undertake BFIA as per the SIOFA standards.	M	24. The SC noted that Recommendation Nr 6 should be considered in conjunction with Recommendation Nr 31. 25. The SC endorsed Recommendation Nr 6 but recommended to the MoP that broader capacity building, particularly data capture, data quality, and data reporting, rather than specifically to BFIA, would be of greater use to developing States. 26. Regarding the priority assigned to this recommendation, the SC considered it to be of a low priority if it only pertained to BFIA, but a high/medium priority if it pertained to broader capacity building that included data capture, data quality, and data reporting. The SC endorsed Recommendation Nr 33 and supported improving communication around data collection, noting that the currently ongoing project on Harmonisation of Scientific Observer Programmes (Annex F, SC8 Report) would address some aspects of this recommendation. 66. The SC endorsed the medium priority assigned to this recommendation. 40. The SC noted that the FAO DSF project is compiling information on how advice is requested and provided at different RFMOs as a way to share ideas and methods among RFMOs. 41. Conclusion

Most of the recommendations from the first Performance Review Panel have been completed or are close to finalisation. According to the first Performance Review Report (MoP-10-01, page 23) “A reiteration of the Performance Review process within an appropriate time frame, which we would recommend could be 5 years from now, given the fact this Review is the first such process carried out by the organisation”. In light of this recommendation, the MoP may wish to consider initiating a second iteration of the Performance Review process.
