2020 Catch and effort data submission report rev1

Relate to agenda item: 11.1

Working paper Info paper Restricted

SIOFA Secretariat

Abstract

This paper summarizes the 2020 catch and effort data submitted by CCPs to the SIOFA Secretariat under the requirements of CMM 2019/02 (replaced with 2021/02 since MoP7) in 2021.

The data quality has overall improved. Species identification is still challenging and there are still a few CCPs which are not submitting data according to the MoP requirements.
