If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of management for the special purpose financial statements

Management is responsible for the preparation of the reporting package in accordance with the recognition and measurement criteria adopted by the European Union and the disclosure and presentation requirements of SIOFA as contained in the reporting package. This responsibility includes: designing, implementing and maintaining internal control relevant to the preparation of the reporting package that is free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies that are consistent with the recognition and measurement criteria of the applicable financial reporting framework in France and the disclosure and presentation requirements of SIOFA as contained in the reporting package; and making accounting estimates that are reasonable in the circumstances.

Auditor's responsibilities for the audit of the special purpose financial statements

Our responsibility is to express an opinion on these reporting package based on our audit. We conducted our audit in accordance with the SIOFA referral instructions issued by you. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the reporting package are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the reporting package. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the reporting package, whether due to fraud or error, as defined by you. In making those risk assessments, the auditor considers internal control relevant to the Entity's preparation of the reporting package in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Entity's internal control.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall reporting package presentation and disclosures.

We believe that the audit evidence that we have obtained is sufficient and appropriate to provide a reasonable basis for our audit opinion.
